### SUMMARY

---

Full-stack developer with hands-on experience building production-grade MERN web and mobile applications, trained at **Saylani Mass IT Training**. Experienced in React Native development and leveraging AI productivity tools. **Actively expanding expertise in Python and Agentic AI** to build intelligent, automation-driven systems. Quick learner focused on delivering impactful, user-facing solutions.

### PROJECTS

---

#### FitnessZone 🔗

*Gym Management Platform*

- Built a **full-stack gym management website** using the **MERN stack**, transforming a static template into a production-grade application.
- Developed an **admin dashboard** for managing members, inquiries, pricing plans, and class enrollments.
- Implemented secure **JWT-based role authentication** to restrict access between admins and regular users.
- Designed a responsive frontend UI using **Tailwind CSS** with contact systems and team showcases.

**Technologies:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS

#### FoodieHub (Web) 🔗

*Food Ordering platform*

- Built a **full-stack food ordering web app** using the **MERN stack**
- Implemented secure **JWT-based authentication**, **Card payment processing**, and dynamic cart management.
- Developed interactive features including **real-time category filters**, live search, and order history tracking.
- Designed a reusable modal system for application-wide feedback and deployed via **Vercel, Railway, and MongoDB Atlas**.

**Technologies:** React.js, Node.js, Express.js, MongoDB, Vercel, Railway

#### FoodieHub (Mobile) 🔗

*Restaurant Mobile App*

- Developed a **full-stack restaurant mobile application** using **React Native** and **Expo Go** for cross-platform performance.
- Implemented secure **JWT authentication** and features like **category-based food browsing** (Fast Food, Pizza, Chinese, Desi Food).
- Built robust functionalities including real-time **cart management**, **secure payment processing**, and order history tracking.
- Designed and deployed the backend architecture using **Node.js, Express, and MongoDB Atlas** hosted on **Railway**.

**Technologies:** React Native, Expo Go, Node.js, Express.js, MongoDB Atlas, Railway

#### ShopEase 🔗

*E-Commerce Mobile Application*

- Developed a **production-ready e-commerce mobile app** using **React Native (Expo)** and **Node.js**, styled seamlessly with **NativeWind (Tailwind CSS)**.
- Implemented complex state management using **Context API** to handle **real-time cart synchronization** across the application.
- Engineered a robust, user-friendly **multi-step checkout flow** synced with dynamic order placement architectures.

- Integrated secure **JWT-based authentication** and deployed a fully functional backend server on **Railway** with **MongoDB Atlas** for order history tracking.

**Technologies:** React Native, Expo, NativeWind, Node.js, Context API, MongoDB Atlas, Railway, JWT

## PROFESSIONAL EXPERIENCE

---

**React Native Developer**

*Intern*

Aug/2025 – Nov/2025

Karachi, Pakistan

- Developed and maintained **cross-platform mobile features** using **React Native**.
- Worked on **component architecture** and seamless **REST API integration**.
- Collaborated on improving application performance, code quality, and user experience.

## SKILLS

---

**Frontend**

JavaScript, TypeScript, React.js, React Native, Redux, Tailwind CSS

**Backend & Databases**

Node.js, Express.js, MongoDB, REST APIs, JWT Auth

**Tools & Platforms**

Git / GitHub, Expo, Vercel, Railway

**AI Tools & Workflows**

GitHub Copilot, Cursor, ChatGPT, Claude AI

## EDUCATION

---

**Web & App Development**

*Saylani Mass IT Training (SMIT)*

2024 – 2026

**M.A Mass Communication**

*University of Karachi*

**B.A English Literature**

*Jinnah University For Women*

## CERTIFICATES

---

- React Native Developer
